# Lexin – a Swedish pictorial dictionary

## Only in Swedish – but still helpful

This site ([link on p. 30](#)) shows Swedish words, organized in 31 themes. With the help of a Swedish-English dictionary you can probably identify the various themes.

Next click on the button for the theme you want to look at and you will get to the next screen, where there are many pictures of words that have to do with this particular theme.

In the example you can see pictures that have to do with cookery and food. If you want more words on this theme, just click on the next button on the top panel. It is easy and fun!

Most of the words are also spoken in Swedish if you just click on the item.

For looking at a new theme, you can go back to the main page by just clicking on the icon with a little house.

If you do not have a Swedish-English dictionary, I strongly advise you to find one. They can be bought for a small sum in a secondhand bookstore or online.

A dictionary is of big help in using the Lexin site, Swedish sites, and perhaps those old letters in the attic!

The Lexin site is a part of the web site of the Swedish National Agency for Education (*Skolverket*). There are other parts on this site that may help you with your Swedish.
