Bits & Pieces
Canadian immigrants
Ancestry.ca launches Canadian Passenger Lists, 1865-1935. One in three Canadians is descended from immigrants listed in this collection.
* The official records of immigration to Canada by ship and overland from the U.S. are indexed and fully searchable online for the first time.
* Detailed records for all major Canadian ports.
The collection is fully indexed by name, month, year, ship, and port of origin and arrival of more than 4,000 ships, and includes original images for more than 310,000 pages of historical records. It is the first time that these records have been indexed and made available online.

End of slavery in the British Empire
The Slavery Abolition Bill 1833 was passed by the House of Commons and by the House of Lords.
It received the Royal Assent (which means it became law) on 29 August 1833 and came into force on 1 August 1834. On that date slavery was abolished throughout the vast British Empire.
The Act automatically applied as new possessions (principally in Africa) subsequently became part of the British Empire.

Swedish Council website is renewed!
The web site of Swedish Council has been rebuilt, and is still not quite done. One new page is a discussion forum, where participants can ask questions, and discuss what is going on in Swedish America!

Minnesota marriages online
The Minnesota Official Marriages System (MOMS) has just started to put all Minnesota marriages online. It is easy to search and the results are useful. If you want a copy of a certificate, you can order it for just $9, and pay by check or money order. I did not see that credit cards can be used. However, they have just started doing this, so it is best to first check the link “County Index dates” and see if your county is already there. There is a link on page 30!

The oldest woman in the world dies
There was an interesting news item in this week’s news from Shelbyville, Indiana. Edna Parker, the world’s oldest woman, died. She was 115 years and 220 days old, according to Robert Young, a senior consultant for gerontology for Guinness World Records. Mrs. Parker was the 14th oldest validated super-centenarian in history. Maria de Jesus of Portugal, who was born on 10 September 1893, is now the world’s oldest living person.
A super-centenarian is defined as someone who has reached the age of 110 or more. Only one in a thousand centenarians achieve this age, and only about 2% of those reach the age of 115. This is an extraordinary physiological achievement indeed!
